FOOTCHOW.
(Herald, Aug. 18th.)

Thursday and Friday last, was the hottest days which we have experienced during the month of August. The thermometer showed 95, 96, and 97 degrees, and in the shade, 100. The summer is unusually low and every sign of an approaching typhoon was visible. Barometer low, thermometer high, and the atmosphere very dull and oppressive. The barometer went down to 29.50 on Saturday morning, the following day a heavy thunder-storm broke over the settlement, and at the Anchorage, the rain coming down in torrents, and there was every indication that the water was far worse up country. Monday last proved the truth of these indications by a heavy frost which caused a great loss in the river, and considerable damage was done to the crops and houses up country. At about noon of Monday last a house which had been washed away by the flood, and three large sampans bottom upwards, were seen floating down the river. Three persons were drowned while endeavoring to collect a portion of the debris. The force of the freshet was so great that two firms, agents for Local Insurance Companies, issued an "Express" requesting shippers of tea to refrain from sending tea up country, until the flood subsided. The freshet had subsided, which it did on the following morning. The fields along the Customs road were flooded, and the water rose considerably over the bund. That there must have been a typhoon in the vicinity of Hainan port, will be clear from the reports of the S. S. *Europe*, elsewhere in our columns.
